ENCLOSURES_____

_____

_____

SPARE COPIES_____

Sub:- Electric - Rates - Irregular adjustment of minimum charges - Doors locked by consumers- meter reading inaccessible - Sanction requested for waiving audit recovery.

Ref:- Paras 5(b) of 1933-34, para 4 of 34-35 and para 8 of 35-36 of the Audit Reports on Electric License Accounts.

****

The Municipality was adopting the procedure of allowing rebate on minimum charged for the first month and subsequent months, when meters were found inaccessible for reading of the meter such rebate was being allowed on the authority of the note under para 2 Part II of the Booklet regarding the conditions of supply Etc., of the Bellary Municipal Electrical Works. This process of allowing rebate was in vogue ever-since the commencement of the Scheme i.e., 1927. The auditor did not raise any objection to the grant of such rebate till 1933-34. During the audit of 1933-34 and, 34-35 and 35-36 amounts to the extent of Rs. 70-14-0, Rs. 1186-13-0 and Rs. 493-1-0 respectively were kept under objection on the ground that there was no authority for allowing such rebates. The matter was referred to the Electric Standing Committee and the Council who in their resolutions No. 6 dated 16-11-36 and No. 19 of 6-1-1937(copy enclosed) resolved to address the Government to waive the recovery partly owing to the very

great practical difficulties in the recovery of the amounts but mainly on account of the ambiguous Note under para 2 of Part II, above referred to.

Subsequent to the issue of G.O. No. 633 W., dated 11-3-35 and its adoption by the Council no rebates were allowed in cases of inaccessibility of meters, for continuous 2 months.

3. It is impossible at this stage to effect recovery of all these amounts where rebates have been allowed owing the fact that in many cases the consumers have had their connections disconnected. As minimum charges were being collected from consumers whether energy was consumed or the consumer's contend that minimum adjustment should be given when the meter was read next in view of the note under para 2 referred to above. — p 7 of the booklet at

4. Under the above circumstances I request that the Government be pleased to waive the recovery of the amounts noted above upto the end of the Official year 1935-36.

Commissioner.

Reply to Audit Objection No. 17 of 1934-35 and April to September 1935.

The 'Note' under Para 2 - Part II of Conditions of supply is existing since 1927. Minimum adjustment is being given since that time and the Local Fund Auditors have not so far taken objection. It is only for the year 1934-35 that the auditors have taken objection. The matter was discussed personally with the Local Fund Auditors. Only in cases where the consumers consume less than the minimum number of units and when meter is next read that some doubt is felt regarding the actual consumption of energy. As the minimum charges are collected from consumers even though energy is consumed or not, the consumers righly demand that for the next month the meter is read that minimum adjustment be given.

2 The 'Note' above referred to does not make the point very precise and several consumers (as is evident from recent petitions) contend that the 'Note' is only a request to consumers to give facilities for meter readings and that it cannot be exercised as a specific rule and that when they pay the minimum charges whether energy is consumed or not. This point of view of consumers, I think, cannot be ignored as this is a public Utility concern.

3 The C.C. No. 638-/ dated 11th March 1935 adopted by the council makes the issues clear. Since then, adjustments are being given for the 1st. month of the premises being door-locked and not for subsequent months.

Extract from the Proceedings of the Municipal Council, Bellary passed at its meeting held on Wednesday 6-1-37 at 5-45 P.M. at the Municipal Office, Bellary.

Reference Memorandum No.3026 E/37-1 dated 2nd October'37 pp 8-9 ante

****

The procedure that was being followed by this municipality when a consumer left his installation connected to the licensee's main but locked up the house and made the meter inaccessible for reading was as follows:-

2 During the first month of such inaccessibility the minimum charge prescribed in Para 2 of Part II of the Booklet of Rules of the Bellary municipal Electrical works was being charged. If the meter became accessible in the second month, instead of charging the consumer as per the reading of the meter in the second month the municipality was charging only for the total units consumed during the two months as per the reading in the second month minus a sum equivalent to the minimum charge collected for the months of inaccessibility of the meter. This was largely a continuation of the procedure that was being followed by the company from which the Electric concern was purchased by the municipality during 1927. It was

also partly due to the fact that the municipality thought that the Note 2 to Part II of the Booklet above referred to contemplated such an adjustment. Audit also did not object to this till 1934. I submit herewith copies of audit objections and also a statement showing how the amounts held under objection were arrived at. The amounts in coloumn 10 of the statement represent the amounts objected to in audit and the statement explains how the amounts were arrived at.

Commissioner. 10328

19/

Forwarded.

If a death accurs in a house in an inauspicious moment, the prevailing custom in Bellary is to lock the house for a number of months. Some times on account of Plague also houses are left locked for varying periods. As the Electric concern is a business concern the religious sentiments of the public had to be respected to some extent. The contention of the consumers that when a minimum charge is already collected rebate to that extent should be granted when the meter becomes accessible deserves sympathetic consideration as generally doors are locked not wantonly but on account of unavoidable circumstances. As some of the items have became time barred and many have been disconnected it is impossible to collect these amounts at this stage and I request Government to waive the recovery of these amounts.

Narayana Rao

P 3 CF " 3027E/37

Bellary Electric Licence - waiver of recovery of rebates allowed on minimum charges and deletion of the note under clause 2 of Part II of the booklet of conditions etc.

(P 7 of the booklet at (0))

Please see the letters from the Comm., Bellary Municipality on pp 1-3 CF and the Council's Electrical Engineer's note on p 5 CF. They do not explain clearly the circumstances under which rebates were allowed on the minimum charges for domestic supply up to the end of 1935-36.

According to clause 2 of Part II of the Bellary booklet of conditions, rates etc and clause 4 of the form of agreement, a consumer must pay a minimum charge of Rs 2-4-0 per mensem for lighting installations and Rs 2-13-0 per mensem for installations with lights and fans exclusive of meter rent, whether energy is consumed or not. Unless a person consumes every month 6 units under the lighting tariff (at 6 as per unit

or 9 units under the lighting and fan tariff (at 5 annas per unit) he stood to lose by paying the minimum charges which are compulsory. Though clause 2 enforces the payment of the minimum charges whether energy is consumed or not the note under that clause permits the adjustment of the minimum charges already paid in subsequent bills provided that the consumer gives the licensee facilities to take meter readings. The note makes the force of clause 2 ineffective. It does not require that the facilities to take meter readings should be given every month though clause 6 of the agreement with consumers says that the meter readings will be taken every month or other intervals. It seems therefore that some consumers have taken advantage of the ambiguity caused by the note and have been allowed rebates. Please see the auditors remarks in para 5(b) at pp 31-32 of Lgo. No 1296 Elec. D. 30.5.36 and in para 4 of page 20 of Lgo. No. 2625 Elec. D. 14.11.36. It is not clear how the auditor has arrived at the loss of Rs. 70:14:0, Rs. 1186-13-0 & Rs. 493-1-0 for 1933-34, 1934-35 & 1935-36 respectively

Vide clause 1 on p 607 (O)

p 7 of (O)

→ The facilities given after a number of months & when once it is given it means the licensee should adjust in the bill of the subsequent months after the month in which meter was read.

C. No. 1550 E/38.

Gc 945/35 dt 21.4.38

Please see the previous note on pages 1-3 ante, the Commissioner's letter and the remarks of the Chairman on pages 13-14 and the copies of the audit objections with statements showing how the amounts held under objection were arrived at as at Flag (G) ~~Flag (G)~~ The position is as follows:-

when a Consumer left his installation connected to the licensee's mains but locked up his house and made the meter inaccessible for reading, he was charged during the month or months of such inaccessibility the minimum charges prescribed for domestic supply. If the meter became accessible thereafter he was billed for the total number of units consumed during the ~~month~~ period by the inaccessibility of the meter as recorded in the meter in the month of accessibility minus a sum equivalent to the minimum charges collected till then. It is reported that this was largely ~~done~~ a continuation of the procedure that was followed by the Company from which the electric concern was purchased by the municipality during 1927 and that it was

also partly due to the fact that the municipality considered that the note under para 2 in Part II of the booklet of conditions etc. contemplated such an adjustment. The procedure followed by the Council has been objected to in audit. It is observed from the copies of the audit objection statements submitted by the Commr. that the audit considers that the charges for the total number of units consumed, as recorded in the month in which meter reading was taken, should be collected in full and no ~~credit~~ credit should be given for any minimum charge collected already. The sums held under objection for the years 1933-34, 1934-35 & 1935-36 are Rs 70-14-0 (Rs 197(a)), Rs 1186-13-0 (Rs 197(b)) and Rs 688-10-0* respectively. It is reported ~~The Municipal Council considers~~ that these amounts are irrecoverable as in some cases the claim for the amount due has become time-barred and in many cases the service has been disconnected. In the circumstances it seems the proposals of the Mun. council to waive recovery of the amounts held under objection and to delete the note under para 2 in Part II of the booklet may be accepted. The remarks of the E.D.G may however be invited re.

KL
6/5-

I consider the Commissioner's explanation (30.3.38) weak; the practices of the "old company days" which ended long ago in 1927 cannot justify the complete non-observance of G.O.No.633-W dated 11.3.35 which would have prevented the irregularity continuing in the 1935/36 accounts.

2 Audit first objected in about January 1936 vide Electrical Engineer's note on page 5 C.F. over the delayed audit of the 1933/34 accounts.

3 I think Govt. may very reasonably waive the recoveries for 1933/34 and 1934/35 but not subsequently Some of the consumers concerned in the 1935/36 accounts will have left Bellary but the majority of the Rs.688.1 should be recoverable.

~~Order~~ ~~Resolution~~ ~~Ms.~~ ~~Rout.~~ No. 1657, dated 4.8 1938

In the circumstances stated the Govt approve the proposal of the Bellary Municipal Council to waive the recovery of the amounts due from its consumers on account of irregular adjustment of (for the supply of electrical energy) minimum charges during the years 1933-34 and 1934-35. They (accede to that) As a good portion of the amount due for the year 1935-36 should be recoverable, the Municipal Council ~~is requested to~~ should take all possible steps for effecting recovery from the consumers

They are not prepared to waive the recovery for 1935-36 after the issue of G.O. No. 6334 dt 11.3.35, the irregularity should not have been continued

concerned.

2. The Govt approve the proposal of the Ml. council to delete the note under para 2 in Part II of the booklet of conditions, rates etc for the supply of electrical energy. The Commr, Bellary Municipality is requested to issue the necessary corrections to the booklet and furnish to Govt four copies of the printed correction slips as soon as possible.

Units recorded Aug 33 - 9 R.R.198 Sarupchand Ghaniaji Door locked from June to September 33	24 into 6	9- 0-0
Unites recorded in October 33 - 41 Units R.R.230 - G. Bhimappa Door locked January to March 33 -	18 into 6	6-12-0
Units recorded in April 33- 18 R.R.249 - Kuppagal Ayyappa - Door locked April to September 33.		

It would be desirable to enforce the rule in order that consumers may not prevent the meter reading staff from taking down the readings for several months at a time and defraud the minimum capacity of the amounts in excess of the minimum charges they may have to pay for certain months in which their consumption might have gone up very high by adjusting the same against short consumption in other months.

R.R. No.367 Akkappa Rao Door locked in April and May 33 consumption recorded in June 33 - 24 units	= 12 Units	4- 8-0
Door locked in July and August 33 consumption recorded in September 33 - 27 -	12 into 6	4- 8-0
R.R. 375 K. Bhimiah door locked in April and May 33 - consumption recorded in June 16 Units -	12 into 6	4- 8-0
R.R.381 - Jadai Siddalingappa reconnected on 29-6-33 door locked since then to 21-11-33 R.R. 383 Havaligi Chidanandappa door locked from April to November 33.		

In the case of R.R.Nos.122 (after oct.33) 249,381 and 383, it may be stated whether the minimum charges made during the months in which reading are not taken were not adjusted in the bills for the months in which readings were subsequently allowed to be taken.

10.14-6

Statement showing the amounts held under objection by audit department

for 1933-34.
